About me

I am a Flutter developer and project manager with 4+ years of experience in mobile and web application development, as well as managing technical teams. I currently work at Hoskadev, an IT company where I lead digital projects and develop innovative solutions tailored to market needs. I specialize in requirement analysis, UI/UX design, performance optimization, and project supervision. My technical expertise includes Flutter, Firebase, REST APIs, and state management tools like GetX and Provider. I have successfully delivered multiple Android and iOS applications, ensuring high quality, scalability, and user satisfaction.
